

**GOVERNMENT OF NIUE**

## **JOINT MEDIA RELEASE**

**19 April 2016**

On 18 April 2016, the Niue Government held a meeting with Rocket Systems and the Government has agreed to allow Rocket Systems to continue providing internet services while both the Government and Rocket work together to discuss a way forward and address all the various issues that have arisen over the past few weeks with regard to the provision of internet services.

This authorisation is for a month while discussions continue regarding various matters relating to the provision of internet services. Rocket Systems and the Government of Niue will work together to find a way forward that is beneficial for both parties and the people of Niue.

The Niue Government looks forward to continuing constructive discussions with Rocket on the way forward for both Rocket Systems and the Government, and ultimately the people of Niue.

Rocket Systems would like to thank the Niue government for its understanding and support in this matter. Rocket would also like to thank its families, friends, supporters but more so the people of Niue who were affected by the recent outage. Rocket Systems hopes to improve internet services and continue serving in whatever capacity we can.
