FOR IMMEDIATE RELEASE

GOVERNMENT OF NIUE SOFT OPENING OF THE NEW FALE FONONO II

Alofi, Niue – 25 February 2022 – The Government of Niue (GON) held a soft opening of the new Fale Fonono II this morning before its official opening scheduled for April 2022.

The purpose of the soft opening was to bless the building for GON officials to move into their respective offices before the official opening later in the year.

“The Government officials moving into the building can now slowly set up their office spaces; they now have brand new and motivational workspaces,” says Premier Tagelagi.

The soft launch was a great success for all those involved in the project and provided the GON with an opportunity to thank them.

“We especially thank the Government of New Zealand for their major contribution to this project. We also thank the Government of Australia for their assistance, as well as all GON agencies, stakeholders and tradespeople who have contributed to Falefonono II,” says Premier Tagelagi.

The general public of Niue is invited to walk through the Fale Fonono II on Friday, 25 February in the afternoon and see the new Fale Fonono for themselves.
