MEDIA RELEASE

FOR IMMEDIATE RELEASE

GOVERNMENT OF NIUE THANKS THE GOVERNMENT OF JAPAN FOR ASSISTANCE FOR A NEW CLASSROOM AT NIUE HIGH SCHOOL

Alofi, Niue – 12 May 2022 – The Government of Niue (GON) today acknowledged the assistance by the Government of Japan through Japan’s Grant Assistance for Grassroots Human Security Project of NZD 287,401 for the construction of a multi-purpose classroom at Niue High School.

The Minister for the Ministry of Social Services, Hon. Sauni Tongatule expressed the GON appreciation for the assistance received from Japan’s Grant Assistance for Grassroots Human Security Project towards Niue’s Department of Education, particularly the financial support to strengthen Education systems.

The school was built in 1965 and officially opened in 1966, making it 56 years of age. However, with the increase in school roll and the desire to offer more options, catering for Special Needs Children, and TVET classes, a new classroom is needed to enable the school to offer a comprehensive Curriculum for its 243 students.

The classroom will be built into a modern classroom to cater to any unexpected increase in student numbers and enhance students learning outcomes.

The school installed 20% of Niue’s renewable energy, and the new classroom will be powered by solar energy, contributing to Niue’s 80% Renewable energy target by 2025.
